

Agriculture is our wisest pursuit, because it will in the end contribute most to real wealth, good morals & happiness.

Rice

In India consumption of rice is highest from other agriculture commodities. Rice mainly produced in India, including white rice and brown rice grown in the eastern and southern parts. India is the 2nd largest grower of rice over the world. Increasing demand in the market, rice production is in trend in India.

Wheat

In India, wheat is consumed and produced at a wide range. Wheat came in necessary goods and used almost daily in India. It is a crucial agriculture commodity that is rich with proteins, carbohydrates, and vitamins, plus it counts in balanced food. Wheat can be grown on a variety of soils and mainly in the northern states of India.

Machineries

Agricultural machinery relates to the mechanical structures and devices used in farming or other agriculture. There are many types of such equipment, from hand tools and power tools to tractors and the countless kinds of farm implements that they tow or operate.
